## Portable Chairlift HM0420

## Product Summary:

1. The product acts as a wheelchair and a chairlift (2 in 1), so you don't need a separate wheelchair when travelling or going places.
2. Lightweight - only weighs 28kgs including battery.
3. Can be brought anywhere when travelling to conquer all types of stairs.
4. Carrying capacity of 200 kgs.
5. Four different adjustable handle height types designed for different trains and gradients.
6. Plug the battery in and leave on charge, the chairlift is ready when you need it.
7. Maximum safety when going up and down stairs using an electronically controlled motor and direct drive transmission with rubber friction tracks.
8. Easy operation when climbing or descending the stairs with up & down control button.
9. With automatic braking system integrated, electronic brake locks tracks during stops on ascent or descent, enabling the chair to instantaneously brake.
10. Made of high-quality reinforced steel and aluminium making it rigid and sturdy.
11. Folds to compact size for convenient storage.
