Unique-design seat

VIMEC
Easy moving

The comfortable, user-friendly seated stairlift

For mobility in the home choose the comfort and quality of Vimec **Ischia**: with its unique technology and straight rail, it is outstandingly streamlined, comfortable and sturdy.

Ischia

is ideal for providing a flight of stairs with a simple, compact solution to access problems which also ensures full comfort and an attractive appearance.

Easy to use

The arm joystick gives simple, direct control of travel, the swivel seat makes getting on and off easy; the remote control calls the stairlift to the level required.

Minimum size

Decidedly flexible and truly compact for every room, the Ischia seat is also available with a folding guide to aid installation even in confined spaces; in addition, for customers with the most sophisticated needs, it features the revolutionary sliding guide, that provides motorised side travel on the staircase.

Adjustment of
armrest width
and seat
height

Seat colour:
hemp, washable
fabric

Safe and Comfortable

The new Ischia seat is the result of extensive ergonomic design, thanks to Vimec's 30 years of experience in the field of stairlifts. The controls are integrated with the emergency stop button; in addition, on the body there are shockproof and crushproof sensors that cause the device to stop immediately when there is an obstacle on the staircase. All of this is completed with a safety belt featuring an automatic belt winder.

As regards riding comfort, Ischia has no equal: the seat and backrest cushions, that are washable, are padded to ensure the greatest riding comfort; in addition, thanks to the full seat rotation, landing on the floor is easy and comfortable.

Easy installation

The Ischia stairlift is designed and constructed to adapt perfectly to your staircase: this makes it easy to install and minimises installation procedures.

Options:

- Manual foldable rail at the lower part for indoor
- Powered sliding rail for indoor
- Version for outdoor installations

The lever for the rotation of the seat is comfortable and fast

Remote control Panel

The footrest is covered with non-slip material and fitted with safety edges

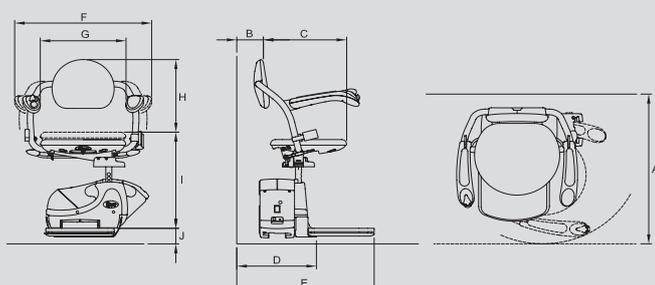

Control board

Focus on technical features:

- The arm joystick gives simple, direct control of travel
- The swivel seat makes getting on and off easy
- The remote control calls the stairlift to the level required starting and stopping are smooth
- ISCHIA has several sensors ensuring that it stops in the event of hazards (such as objects on the stairs)
- Adjustment of armrest width and seat height

Technical data

A: Turn radius (min ÷ max)	730 ÷ 760 mm
B: Backrest to wall distance (min ÷ max)	60 ÷ 70 mm
C: Seat depth 415 mm	415 mm
D: Dimension with footrest up (min ÷ max)	320 ÷ 330 mm
E: Dimension with footrest down (min ÷ max)	607 ÷ 617 mm
F: Outside distance between armrests (min ÷ max)	600 ÷ 660 mm
G: Inside distance between armrests (min ÷ max)	427 ÷ 487 mm
H: Backrest height	423 mm
I: Footplate to seat height (min ÷ max)	410 ÷ 510 mm
J: Minimum footplate height from the ground	50 mm
Track overall size on staircase (min ÷ max)	190 ÷ 200 mm
Track min. dimension of parking area on top floor	150 mm
Minimum width of staircase	750 -780 mm
Maximum gradient	50°
Working load	120 kg
Speed	7 m/min
Battery power supply voltage	24 V cc
Mains power supply voltage	240 V
Power supply unit absorption on mains	1 [A]
Consumption	0,4 Kw

Guaranteed product

The Vimec product is guaranteed for 24 months from the date of delivery to the customer; the guarantee can be extended by contacting the local service centres.

PSP: serving the partners

Partner Support Program: a Vimec exclusive for its partners, aiming to supply each of them, all over the world, with a series of personalised tools for developing their business and offering the end user better service. This programme includes an introduction to the concepts of "accessibility", specific classroom training courses and training in the field for sales staff and engineers, analysis and assistance for the development of the most appropriate market strategies, and backup for the organisation of seminars (e.g. for architects, civil engineering firms, etc.) and for participation at trade fairs. Close co-operation with its partners guarantees Vimec constant improvement of its knowledge of the various markets and their varying needs in terms of accessibility, which translates into the design of suitable products. All is oriented towards better management of customer relations, and the achievement of full customer satisfaction.

VIMEC Range

A wide range of products dedicated to people: home lifts and elevators, chairlifts and stairlifts, platform lifts and mobile stair climbers.
